

ANIMALS FOR ADOPTION FROM ANGEL'S WISH

SADIE

Sadie loves people!! She is an 11 year old little girl, but don't let her age fool you. She is very healthy and runs around and plays like a dog half her age. Cuddling and petting is the greatest and playing with other dogs really makes her smile. She is sweet and polite with children as long as they are gentle with her. She is a real lady and very calm.

COCOA

Cocoa is a beautiful eyed kitty with a shy but sweet nature. Cocoa has become more outgoing and is learning to sit out in the middle of the room in her favorite sun spot! She loves playing with her toys, catnip, sleeping in her kitty beds and her cat scratcher. Cocoa would do best in a quiet environment where she can take her time exploring and feel safe.

SAMSON

Samson is a handsome, red haired feline looking for someone to share good times and quiet moments with. He is easy going, soft spoken, able to love unconditionally, and ready for a lifetime commitment. He is willing to love, honor and obey. Ok, how

about we go with love, feed and entertain? Yeah, that's the ticket! Samson is about 3 years old, has purr-fect cat manners and adjusts well to just about any living arrangement.

MURPHY

Murphy is a 9 year old fella in need of a new home because his momma had to move into assisted living and could not take him with her. He is a very shy kitty, but behavioral modification along with medication has helped bring him out of his shell. He is playing with glitter balls, peacock feathers, and even reaching out of his kennel to get attention from people! He will most likely be able to slowly taper off these medications and once he finds a home, won't need them at all!

Learn more about these and other wonderful animals available for adoption at angelswish.org

Angel's Wish is dedicated to reducing animal overpopulation, rehoming companion animals, and raising awareness of animal welfare issues in South Central Wisconsin. These are just a few of the many animals waiting for homes. All are altered, vaccinated, dewormed and FELV/FIV tested.
